Alarm Record
20 points/lines/areas
Fire prevention
Surveillance Multi-strategy Combo
The combined usage of intelligent analysis and temperature measurements can exclude false alarms before or in the early stage of a fire hazard.
Real-time Sound and Light Alarm
There are built-in alarm lights and speakers for models whose name ends with CT or DT to activate the sound and light alarm when anomalies are found; Voice customizable.
Indoor/Outdoor Fire Prevention
Voted models can be electrically meet the indoor and outdoor detection needs for the fire spot short, medium, long distances; and abnormally high temperatures of targets.

Industrial Temperature Measurement
Temperature Accuracy
\[\pm 0.5 \text{ °C} / \pm 1 \%\]
Temperature Range Customizable
-20°C~150°C (-4°F~302°F)
Worm Gear and Worm Drive PTZ
Thermal PTZ cameras can monitor the temperature of preset points, which means the requirement of multi-object temperature measuring in one scenario.

Deep Learning

Human Detection
Single Line Crossing
Double Line Crossing
Smoking
Smoking Detection
Human/Vehicle/Fire spot/
